

FOR SEMI-TRAILER

TAIL LIFT

CANTILEVER SERIES

FTT-1501

FTT-2001

Fleet Tail Lift Cantilever series FTT-2001 SERIES

FLEET Tilt Tail lift FTT-1501/2001 is designed for semi-trailer. Making it more powerful to load by hand pallet trucks.

We have many designs to suit with customers' needs with **lifting capacity 1500/2000 kg.** The platform is performed by 2 types of mechanic, Lifting and Tilting, so it can be used like a ramp. We provide both steel and aluminum platform.

*****AUTO LEVELING AT GROUND FLOOR*****

OPERATION CONTROL

The control box

This cantilever series is the most simple and convenient to use with only 2 buttons for operation (UP & DOWN) and cut-out switch for safety issue. The control box can be closed and locked BY key.

**Control unit without
electronic components
for ease of servicing**

Remote

In addition, Fleet truly understands real-world operations. That's why we provide a 3-button remote with a plug-in power connection for greater convenience in use and prevent human error when lift and tilt (**Can not operate both Simultaneously.**)

Aluminum Cart Stop

For ultimate safety, Fleet tail lifts are equipped with a Aluminum cart stop to prevent load falling down.
